To Whom It May Concern,

RE: Testimonial for Foo Cher Shuan (T0171848C)

Hi, I am the Class Advisor for Foo Cher Shuan (T0171848C) at ITE College Central, School of Electronics & Info-Comms Technology. Cher Shuan started her course in *Nitec* in Electronics, Computer Networking and Communications from January 2019 till December 2020. Her final score in her Year 2 results was GPA 3.16.

She continue to do a direct Year 2 course in *Higher Nitec* in Electronics Engineering, specializing in IoT & Communications from April 2021 till March 2022, and has successfully graduated from her course of studies. Her final score in her Year 2 results was GPA 1.96.

During her *Nitec* course, Cher Shuan was active in wushu CCA and also had participated in electronic projects competitions, maker fair and community projects for the elderlies organised by the school. At her *Higher Nitec* course, while in her 10 weeks industrial attachment to MDR Ltd, a popular telecommunication service provider, the supervisors were pleased with her performance, acknowledging her as been independent and with good work attitudes.

Cher Shuan is friendly, humble, and well behaved. She gets on well with her fellow classmates and helps them whenever they need her. She is also focus and determined in her studies, and has demonstrated the ability to complete assignments and projects with minimum supervision.

Cher Shuan is resilient when faced with challenges and always strive to learn and overcome problems she faces. She has been perceived as a reliable and dependable student by peers and lecturers, and gets along well with anyone.

Cher Shuan is an exemplary student for her good conduct and attitude. I believe that she has the potential to continue to do her best and will contribute significantly in her future endeavours.

Yours Sincerely,

William Siew
